>> This qualification for language promotion combines German language instruction with professional qualification. The focus is on content related to work and profession in order to facilitate communication in the workplace for the participants. They are being prepared for working life, making it easier for them to search for a job or to better perform their current profession.

Within the framework of this qualification, individual participants should gain a German language proficiency within the education and job market in the shortest possible time by taking into account their individual access requirements as well as the subsequent or already existing professional activity.

## Content of Trainingcourse

- ◇ determination of linguistic proficiency level
  - ◇ review basic principles of the German language language
  - ◇ proficiency and communication skills for professional settings
  - ◇ communicating with customers and colleagues, using appropriate written language for the specific industry effective presentation and public speaking, verbal argumentation, communication through digital and telephone mediums
  - ◇ understanding of business fundamentals, which may include topics such as management, finance, and marketing.
- ⇒ **Course 1:** max. 20 participants for the professional field of gastronomy (with or without prior professional knowledge) starting from **06.11.2023**
